## **“CURE IS OUR MISSION”**

### **DR. JABALY’S PHILOSOPHY**

*“[...] we must pick ourselves up out of the ashes and start anew.”*

**-Dr. Georges Jabaly**

**We Build People:** Just like a phoenix, people should be able to rise from extreme hardships, or traumatizing events; the phoenix faces the harshest sentence—being burned; in due course, it rises from its ashes, regenerating, and becoming more powerful and able-bodied to take on anything that comes its way.

*“No matter how hard times may become, it does not mean we give up totally, submitting to whatever has disrupted our delicate way of life.”*

**-Dr. Georges T. Jabaly**

*“The most severe handicap is when you restrict your self and your life.”*

**-Dr. Georges T. Jabaly**

## **“CURE IS OUR MISSION”**

### **MISSION AND VISION**

#### **Our vision:**

- **Become the first clinic to offer universal, authentic, state-of-the-art health care to our patients at an affordable cost, while expanding throughout Northwest Ohio and Michigan in the next five years.**

#### **Values:**

- **Honesty**
- **Respect of our staff and patients**
- **Teamwork**
- **Friendliness**

#### **External Goals:**

- **Provide the best customer service to our patients**
- **Improve patients lifestyle by treating the patient in entirety not just parts of the body**
- **Each patient must walk out of our office happier than when they came in**

## **“CURE IS OUR MISSION”**

### **EXPERIENCE**

#### **from humble beginnings**

- Dr. Georges T. Jabaly was born and raised in Yabroud, Syria.
- Around the time of graduating from medical school in Syria, Dr. Jabaly was faced with a life-changing event; his mother was diagnosed with throat cancer. Determined to defeat this, he made his way to the University of Aleppo’s chief resident, who told him to take her to Damascus, where an American board-certified doctor would treat her.
- After witnessing the success and complete recovery of his mother, he decided to come to America and complete his studies. His mother’s near brush with death, then complete recovery made him discover just how fragile life really is; why not seize the opportunity to protect this fragility?
- Dr. Jabaly’s residency took place at the Mercy Health Care System. He achieved a Masters Degree in Biomedical Science. Today, having been a doctor for over 20 years, he is the Founder and Director of the MN Angels Clinic.

Here is what one patient had to say:

***“It is shocking just how great I feel now. I feel so good. I was always exhausted because I had my thyroid removed due to cancer. My friend, which is a very pleased patient of Dr. Jabaly, actually referred me to him. Today, I am 20 pounds lighter and am full of life. Thank you Dr. Jabaly—you saved me!”***

# MN ANGELS CLINIC

## **“CURE IS OUR MISSION”**

### **SPECIALIZED OFFERINGS:**

- **STRESS TESTS**: a cardiac stress test, which reveals exercise tolerance, symptoms during exercise, abnormal heartbeats, blood pressure changes, and EKG changes
- **ECHOCARDIOGRAMS**: this uses ultrasound to examine the heart. You can learn the sizes of the heart chambers, the heart's pumping function, valve function and any abnormalities
- **EMG**: this is a nerve conductivity study, which reveals carpal tunnel, diabetic neuropathy, lower back and neck pain, and ALS and muscular dystrophies

-Stress tests can reveal any clogged, or narrowed, artery that may lead to reduced blood flow to a specific area in the heart muscle; consequently, this leads to starvation in that area, producing symptoms and EKG changes.

-Echocardiograms are extremely safe, and last only 20-30 minutes. It is a Doppler Study, which is a special part of the exam that assesses blood flow direction and velocity.

## “CURE IS OUR MISSION”

### GUARANTEED WEIGHT LOSS

#### QUICK FACTS:

- Dr. Georges Jabaly has taken weight loss to new heights. The development of the program guarantees a loss of 1+ pound(s) per week, and has a very affordable price tag. Dr. Jabaly is actually expanding his Holland-Sylvania location, and is dedicating the new wing for weight loss.
- Did you know that diets, such as South Beach, 5-Factor Diet, Weight Watchers, Jenny Craig and more, can cost up to \$385 the very first week?\* Also, these programs only address weight loss. Dr. Jabaly has created a very powerful program, which is monitored every step of the way; consequently, patients can overcome any hurdles and plateaus that can come their way.
- Dr. Jabaly has uncovered one of the most prominent factors behind why so many people are overweight: METABOLIC SYNDROME.

#### Dr. Jabaly defines Metabolic Syndrome as consisting of the following symptoms:

- Abdominal obesity
- Blood fat disorders
- Elevated blood pressure
- Insulin resistance or glucose intolerance
  - Prothrombotic state
  - Proinflammatory state
  - Physical inactivity
    - Aging
  - Hormonal imbalance
  - Genetic disposition

## **“CURE IS OUR MISSION”**

### **Worker's Compensation**

#### **What is this?**

- When a person is injured on the job-site, the doctor attends to their needs and ensures the injured workers' financial stability, as they take time off of work to heal.**
- Dr. Jabaly provides such services for his patients with a worker's compensation claim.**
- Dr. Jabaly ensures that all their medical care is covered.**

# MN ANGELS CLINIC

## **“CURE IS OUR MISSION”**

Dr. Jabaly's patients' lives have been dramatically changed for the better.

### **Patient Testimonial:**

*“I started seeing Dr. Jabaly back in November, 2007. I was very ill and, being a new patient at the time, I could not breathe properly. Everyday tasks, such as walking up the stairs, left me out of breath. Dr. Jabaly immediately ordered blood tests for me. When the results came in, I found out that I was severely anemic. He also took me off of five unnecessary medications that were causing me to gain a lot of weight. Within one month, I was starting to see and feel a difference. Today, I feel great. Dr. Jabaly is my life-saver. I recommend him to anyone. I even bring my son, daughter and two grandsons to him. He gets down to the cure; he does not mask them with unneeded drugs!”*

-Brenda Belcher, 8/28/08
