

PATIENT TESTIMONIAL:

"Dr. Jabaly has been my doctor for over five years now. When I first came here, I was an alcoholic and a cocaine addict. I would be dead if it weren't for Dr. Jabaly. He actually detoxified me at home, and made sure I was calm. He would check up on me every two hours for four days straight! He saved my life. I don't know where I would be without him. Today, I have a healthy five month old girl. After having her, I thought I would have to find a pediatrician. Dr. Jabaly told me that he is a family doctor. I was so happy to hear that. He is so good with my baby. He's an amazing person. He treats you as an individual, not just as a patient. He cares about your happiness. He does not only focus on the medical aspect of the patient. I am proud to say that I have been sober for two and a half years, and am back at school. Thank you Dr. Jabaly!"

PATIENT TESTIMONIAL:

"I have been going to many doctors and physical therapists, trying to get rid of my chronic pain due to an injury I acquired work. I had to undergo surgery for my stomach and I really damaged my back. I could not stand up because of the chronic pain in my back and knees. I gained so much weight. I was weighing over 400 pounds. I tried everything, but I kept hitting plateaus. I came to Dr. Jabaly. He put me on a weight loss program that I have never encountered before. I feel great today. Most of the pain is gone, and my stomach actually went down, all within two months! I feel tight and toned and better than ever."

PATIENT TESTIMONIAL:

"I started seeing Dr. Jabaly back in November, 2007. I was very ill and, being a new patient at the time, I could not breathe properly. Everyday tasks, such as walking up the stairs, left me out of breath. Dr. Jabaly immediately ordered blood tests for me. When the results came in, I found out that I was severely anemic. He also took me off of five unnecessary medications that were causing me to gain a lot of weight. Within one month, I was starting to see and feel a difference. Today, I feel great. Dr. Jabaly is my life-saver. I recommend him to anyone. I even bring my son, daughter and two grandsons to him. He gets down to the cure; he does not mask them with unneeded drugs!"

PATIENT TESTIMONIAL:

“Doctor Jabaly has changed my life. I sleep better and I am more confident. I have gone down two dress sizes, and I am still losing! Thank you, Dr. Jabaly!”
