

### **Dr. Georges Jabaly**

Board-Certified  
Family Practice  
Founder/Director

Dr. Jabaly improves the lives of all the people he encounters. His philosophy, simply put, is *“we build people.”*

*“The end of one thing is the start of something else. If you are in a tunnel and have come to the end of it, then something new awaits on the other side. That is how life is; life is full of ups and downs. Even when hard times hit close to home, we, as humans, must pick ourselves up out of the ashes and start anew, just like a phoenix.”*

-Dr. Georges Jabaly

Dr. Georges Jabaly is the founder and director of MN Angels Clinic, where “cure” is his ultimate mission. Dr. Jabaly has taken medicine and health care to new heights. Everything from his charitable services performed overseas, to his offering of a state-of-the-art medical care program at a very affordable price for the uninsured, are part of his mission. This Board-Certified, Family Practice Physician holds a Masters Degree in Biomedical Science. He has been in the medical practice for the past 20 years. He is a member of the American Medical Association, Toledo Academy of Medicine, Ohio Medical Association, National Arab-American Medical Association, Syrian-American Medical Association, and serves as President of the non-profit organization, known as *“Terre Des Hommes, USA.”* This International Federation is a network composed of eleven national organizations, which work for the rights of children. It promotes equitable developments without any racial, religious, political, cultural or gender-based discrimination.

*“In my medical practice, I believe in making an accurate diagnosis and offering the best treatment for my patients to improve their health status and slow their disease process. I look into their whole life to address their needs on a physical, social, and spiritual level. In addition, I am looking to promote prevention medicine by emphasizing life-style modification to maintain good health and increase functionality.”*
